EXAMINATION RANGE

Universal Examination Table

Suitable for a wide range of specialties including general practice, natural therapies, massage, beauty treatments or any multi-function practice.

Every practice should have at least one heavy duty table allowing the safe lift of heavy patients reducing fatigue and back strain on the practitioner. This three section couch can safely lift up to 350kg. Designed to help with patient examination and procedures where space is an issue. Each end section can be manually raised +80° and lowered -50° for left and right patient examination and procedures. The column lift eliminates total pinch and crush points so nothing can get trapped under the table.

FEATURES

Electric height adjustment with hand switch

Column lift eliminating crush points

Independently lockable castors

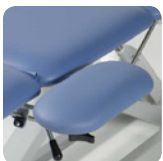

Durable powder coated rust resistant frame

High quality anti-microbial vinyl & CFC free foam
